Action Required: All 14 users above must be flagged in the CRM immediately. For users with 20+ tickets, assign a dedicated account manager. For 11-20 ticket users, route all future tickets to senior agents with full conversation history.

3. HIGH-Risk Users — 6-10 Tickets (135 users)

These 135 users have opened 6-10 tickets each. They are actively frustrated but still engaging with the platform — making them the highest-ROI recovery targets.

Recovery strategy for all 135 users: Auto-escalation after 2nd ticket on same topic. Widget should detect returning user and greet with: "Welcome back! I see you contacted us before about [TOPIC]. Let me connect you with a senior agent who has your full history."

4. Same-Topic Frustration — Users Opening 2+ Tickets on Same Issue

These users opened multiple tickets about the SAME problem — the clearest signal that the issue was NOT resolved on first contact. Listed by topic with user IDs.

Greeting Only (no question) — 194 frustrated users, 568 tickets

Why they're frustrated: Users open chat with "hola" repeatedly because the widget doesn't guide them. They don't know how to ask their actual question.
Recovery action: Widget should auto-respond with topic menu after greeting. Auto-merge repeat "hola" tickets from same user within 24h.

Key finding: 8,788 single-ticket users (82.4%) are "Uncategorized" — these are chat-based conversations where the subject/description didn't match any keyword. To improve classification, the system needs to analyze chat comments (not just the initial ticket text).

8. Executive Summary & Recommended Actions

Key Findings:

- **14,888 unique users** contacted support over 5 months, generating 22,000 tickets.
- **28.3% of users are recurring** (4,215 users with 2+ tickets) — they generate 51.5% of all ticket volume.
- **14 CRITICAL users** (11+ tickets) need immediate intervention — each represents a severe service failure.
- **135 HIGH-risk users** (6-10 tickets) are the best ROI targets for recovery investment.
- **Same-topic frustration** affects 490+ users across 10 topics — clear signal of first-contact resolution failure.
- **"How to Withdraw"** has the highest churn risk: 40 users averaging 2.7 tickets each, all potentially paying users who can't cash out.
- **"Deposit Not Credited"** directly correlates with bank transfer growth — 28 users averaging 2.8 tickets with money "lost".
- **82.4% of single-ticket users** are "Uncategorized" — improving classification requires comment-level analysis.
